Water, Elk & Your Own Private Playground! The Tyler Creek Ranch--a truly diverse property suitable not only for a horse/cattle operation, but also for the hunter, fisherman, recreation enthusiast, or someone simply seeking privacy. This ranch has been thoughtfully pieced together over the last 50 years--it is steeped in history and is a rare mix of agricultural and recreational acreage with live water running through it and frontage on the Clark Fork River. There are approx. 1580 deeded acres along with leases for grazing. The ranch borders thousands of acres of USFS land with limited access to the public, in an area of abundant wildlife & excellent hunting opportunities. Extensive water rights from Tyler Creek allow for irrigation of hay ground and stock watering. Ranch ownership also provides direct access to over 3 miles of exceptionally beautiful Clark Fork River frontage that the general public cannot get to except by boat; it is a rare ownership configuration that adds such value to the property as a whole. Additionally, there is a large private pond on the property that is naturally stocked from the river--huge trout provide sport for the angler. An older caretaker/manager residence is on site, as well as a really neat barn built long ago and other ranch outbuildings. This truly is an incredible opportunity to own your legacy property in Western Montana--all within 30 minutes of Missoula, its international airport and a plethora of amenities to enjoy.
